

# TABISH KHAN

## Full Stack Web DEVELOPER

☎ 604.614.6909

✉ tkhn003@gmail.com

🌐 www.i-fullstack.com

### Objective

A full stack web developer with extensive education, and intensive experience in the world of computer science. Looking for a full stack Ruby on Rails Developer position within a thriving environment.

### Education

2009-2014      BSc. Computer Science, Life Sciences  
(Combined Major)  
*University Of British Columbia*

### Experience

Mar 2014- Present	<b>Freelance Web Developer</b> <i>i-fullstack.com</i> I have about one year experience in web development. This includes working with PHP and Amazons EC2 Service in the past, and more recently Ruby on Rails.
Mar 2015 - Present	<b>Real Geeks</b> <i>Ruby on Rails Developer</i> I have been working (remotely) on a Lead Manager Application for a company called Real Geeks based in Hawaii. This work includes implementing certain features that have been handed down to me.
Jan 2015- Mar 2015	<b>CodeCore Bootcamp</b> Succesfully completed a 2 month (very) intensive bootcamp focusing on Ruby on Rails Web Development. Many of the practical skills I pocess come or have been refined from my experience here.
Mar 2012 - Mar 2015	<b>Paladin Security</b> <i>Health Care Security Officer</i> Worked at Richmond General Hospital, in a team of 3 security officers. Our job was enforcing the safety of Nursing staff as well as Patients. Aggrivated, or inappropriatly acting patients and visitors often caused high pressure situations requiring on the spot thinking and quick action.

### Projects

#### CodeCoreQ

<https://codecoreq.herokuapp.com/>

A collaborative group project consisting of 11 developers. Users are asked a series of coding questions to test their programming ability. Frontend developed with HTML, SASS and jQuery. Backend developed using Ruby on Rails

#### MMDB

<https://mymusicdb.herokuapp.com/>

App I built which (using Rdio Api) allows users to search though millions of songs, and select and save their favourite songs into their own collections. Users can login using their Facebook or Twitter Accounts (implemented using OmniAuth). Backend developed with Ruby on Rails. Front End developed using HTML, CSS, JQuery, Javascript

#### Project Mangement Tool

<http://pmtoolv2.herokuapp.com/>

Project Mangement Tool. Allows users to collaborate on projects, designed to boost project efficiency. Backend Ruby on Rails. Front end HTML, CSS, JQuery, Javascript

*NOTE: I am always working on side projects. Many of the other projects, and code I have worked on can be found on my GitHub page.*

### Professional Skills

Ruby on Rails	★★★★	Git VC	★★★★
